296 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

296 responses

20. The overall quality of the teaching-learning process in your institute is very good.

296 responses

21. Give three observations/suggestions to improve the overall teaching-learning experience in your institution.

296 responses

- Communicate
- Nil
- 1. Teachers are very supportive and always there to help us no matter how poor we are in understanding a concerned theory and so and so forth.
- 2. Teachers of the concerned college makes communication very easy and they are friendly too, always there to help us.
- 3. Overall, this college already has what an institution should have..
- Right now I don't exactly have a suggestion as the college is at it's best and I think it's doing quite good so far. Whether in academic, life skills, in spirituality, sports (physical health) and other Co-curricular activate they give importance to all.
- 1. Teacher and students must be reach in class at specific time.
- 2. Teacher should be regular in class..
- 3. All Teaching material have to provide properly in class room.

Communicate

Nil

- 1. Teachers are very supportive and always there to help us no matter how poor we are in understanding a concerned theory and so and so forth. 2. Teachers of the concerned college makes communication very easy and they are friendly too, always there to help us. 3. Overall, this college already has what an institution should have...
- Right now I don't exactly have a suggestion as the college is at its best and I think it's doing quite good so far. Whether in academic, life skills, in spirituality, sports (physical health) and other Co-curricular activate they give importance to all.
- 1. Teacher and students must be reach in class at specific time. 2. Teacher should be regular in class... 3. All Teaching material have to provide properly in class room.
- I'm from small village, where lack of subject teacher. Our education system is not good. English speaking is very rare. Grammar classes never taken. Name of smart class one period always off. There are many things in which teachers should focused. But overall these are necessary(1) special classes for weak student(a)English speaking class, (2)conference meeting and(3) briefly discussion on every chapter. (2) Better guidance according to their ability. (3) Understanding and encouragement.
- Science students are also being pressured into studies. A spent more time in classroom then outdoor teaching.
- Stop being extremely corrupted try focusing on being less corrupt Mara much mare...Money is everything in this institution.
- Teacher should be frank and feel comfortable teaching us, not just because it is their job.
- I don't have any suggestions
- 1,more assignment 2,focus on physical education 3, pressure on study matters
- Take some initiatives while taking roll no. ii. Provide us notes in more discount. iii. No programme to be made compulsory while having classes
- Learning and seeing and explanation
- 1. To conduct test in class more often. 2. Having a better relationship with the students so that the pupil will feel free to ask in times of confusion.
- Few of us come from most neglected primary to High school where some subject teachers is not available. Name of smart class one period is always off. I'm still confused why? Teaching English Grammar and English speaking were so infrequent. During Grammar class teacher said "you will learn later and higher classes". In higher study teacher scolded that "we should know all basic of grammar when we're kid." Because of shame no student dare to talk and ask. Till we're ashamed for our poor

performance and pronounce. Because of our weak background!? We didn't afford better education and get into coaching class. There are some observations: - (1) Taking special class of all poor student. Were main focus will self-confident, self-development and communication? (2) Student will get councillor and best recommendation by their interest. (3) Extracurricular for all the student in which every single student should be participate, equal treatment and understanding.

- No comments
- Good
- No complains
- No suggestions
- Nil
- Teachers should not judge their student based on personal issues. 2. Don't Partialize honours student (of one's department).
- Teaching with examples helps understand better. Better explanation. A little push and encouragement along with being strict is what needed sometimes instead of just degrading.
- 1 classes without rest 2 good environment for study 3 network condition is not good for internet learning
- They should improve in teaching and interacting with student and they also take regular class
- No comments
- They should ask students how they feel about certain works or assignments given to them 2.they should decrease note we have to write tons of notes same as book and so I would say to give notes in copy way 3. We students should be exposed to some kinds of practical teachings
- I'm okay
- Give more examples related to our student lives
- They are all great. I don't feel any trouble in understand their teaching. So, I say they do not necessarily need any improvement.
- To teach with example and in an interesting way
- Using of IT, visiting certain fields for better understanding of subjects and topics, use of LCD projector while teaching.
- We are getting the good teaching facilities
- Oral questioning Regular test Giving advice...
- It's good the way it is but I guess it can be better.
- Satisfactory
- Teacher should focus more on the weak student help them sort out the problem they face in the class since they r scare to ask question openly. Some exciting topic which

are out of the syllabus must be taught to make student aware of the outside world.
thank u

- Improvement in communication 2. Change the way of taking attendance, sometimes it gets inaudible to the teachers and the student lose its attendance 3. A visit to history sites (for history honours students)
- Some department need to improve
- Student should be given more opportunities to visit field trip to learn and experience practically.
- They should use ICT tools such as a LCD projector while teaching They should able to identify our weakness and help us to overcome it They should provide us multiple opportunities to improve our educational system
- *They should give us more explanations along with notes *More regular classes * Field visit
- I'm ok with the current teaching techniques
- Digital class should be used for every honours subject.
- Teacher should explain thoroughly and give example of the explanation so that students can get more knowledge. Teacher shouldn't only be reading the chapters but explaining it more often. Teacher should tell the students about which book is needed for every subject.
- I am improve all my subject
- They should have interaction with students more than within the teachers. 2. The institutions should retrospect the teachers how they deal with the students & how he manage their works 3. Above all, both the institutions & teachers should be aware of the how a student feels and shows their presence matter for the institute mentally & physically
- Field trip, student exchange, excursion for all Semesters should be given. 2. No giving too much Assignments. 3. Interaction with one another (student to student) sometimes.
- I want the teachers to improve in teaching. They never explain about the details they just readout the textbook. I want them to prepare before they give lectures.
- Using some upgrades like projectors etc. for better learning 2. Teaching the lessons for the students it understand more easily a clear 3. Doing some projects or trips for all the students for better learning
- 1. Try to improve with the biased. 2. Teachers should provide 100% teaching methods. 3. Practicals should be inculcated even in Arts.
- Led projector and multimedia should be used while teaching
- Students should corporate little more with teachers

- Use better graphics and visual media to engage students well. 2. Try to reach every student and ask for our doubts. 3. Make teaching a two way interaction.
- It'll great if the authorities decrease college fee... Fee structure should be neutral
- More teacher-student communication 2. Partiality of students
- 1.use better graphic and visual media to engage students well 2.try to reach every students and ask for theirs doubts 3.make teaching a two way interaction
- Use ICT tools
- Repeat explanation, slow down teaching style, regular test.
- The college organizes so many unnecessary programs and we are made to attend these programs... Many useless programs being held in the campus makes us the students to lose interest in academics. • Make teaching a two way interaction. •The college should utilize the ICT tools that are in every classroom. We feel like it's only for showing off because we haven't seen it being used even for once.
- Need proper technical development Need to provide students for exploring the activities which is being educationally needed Need to build more better 'infrastructure for hostel and mess
- Improving infrastructures support extracurricular activities improving field trips and practical's lab
- Everything is fine and well in our institution
- More cognitive problem solving skills should be taught by the teachers. 2. New ways of viewing the world and the subject should be taught to the students. 3. Teachers should also participate in what they are teaching.
- There should not be regular classes during internal test. 2. There should not be continuous 3-periods of a single teacher.
- 1. They should stop meddling with the students personal affairs (dating, friendship) and more on extracurricular activities and practicals. 2. Chemistry teachers are unfair on internal assignment based on their honours subject.
- 1. Should take interest in internship.
- It can use different methods of teaching because not everyone has the same capacity to gain the knowledge
- The teaching-learning experience is very good so far. No complains. They really work hard to make us understand if we don't.
- Try to reach every students and ask for their doubts. 2. Make teaching a two way interaction. 3. Use better graphics and visual Medias.
- Class activities, a competition, and a class workshops like discussion about the outside world.
- To explain thoroughly 2. To take weekly test 3. To observe their students regularly
- Teach peaceful lily and normally. Not beyond that.

- I would like to suggest to give more opportunities to develop student's skill. 2. I want teacher to be more active. 3 Required more facilities.
- 1. Asked for their doubts one by one if possible 2.make teaching in two way. 3. Use of projector for teaching must be good for every teachers.
- Gives more attention to the weak students, give suggestion on the syllabus, use more technologies for teaching.
- Ask students about their problems
- More interactive
- Assignment should be given weekly. Teachers should give more attention to weak students. Students also go near to the teacher to clear their doubts.
- 1 Use of modern education technology,2 proper mechanism of counselling,3 Develop a plan on student's skills and talents
- Teachers are good in teaching. 2. Many things can learn from teaching learning process. 3. New ideas can achieve through thinking ability.
- Motivation,
- I don't have any complaints based on this issue.
- Understand with each other
- I would not like to suggest anything because in our institution the process of learning and teaching is very good.
- 1.they must not be a very good tempered 2.they should be more strict about using phone in classroom 3.they should be an upright heart
- Do not simply give lecture or teach, ask students for their doubts and other questions. 2) reflect on your lecture and laboratory sessions. 3) Try to reach every student and ask for their doubts.
- We need to take attendance in regularly
- Teacher's they're always in a rush to go home specially college teacher's... 2) students he to wait for the teachers to come into class only few turns out!!! While we hardly see some teachers!!! 3) Lastly I love my teachers and my college ♥☐...I'm obligate to say that!! I found #Countable teachers who are loyal!! While the rest after money madness, comfort, etc...
- equal interests 2)be more specified 3)no partiality between other students and class monitors
- Friendliness, laboratory, good preparation to start the class
- teachers must pay more concentration on poor one rather than smart one
- 1.To be more friendly 2.To be more active 3.Time management
- 1. The interaction between some teachers' with the students are poor and, would love to attend maximum classes' if improved. 2. It would help very much if the teachers

could help in giving more attention to all the students and captivate the class if possible. 3. Would love if some of the teacher's explanations were easily understood.

- Slow talking and calm
- Improve the quality of evaluation of internal assessment. 2) Sometimes it's difficult to understand some teacher's teaching because of language and pronunciation. 3) Classes should be more interactive.
- Everything is moderate but we need better security facility. !!!
- 1-Should provide smart Classroom 2-warden in the college should be strict and responsible in their assigned duties3-
- Its fine
- Nothing much
- 1. Use better graphics and visual media to engage students well! 2. Try to teach every student and ask for their doubts! 3. Making teaching a two way interaction!
